

SCORING THE WRITE-UP			
DOCUMENTATION: HISTORY (INCLUDES ALL COMPONENTS – HPI, PMHX, ETC)			
1	2	3	4
Key history information missing or incorrect	Most key positive history information present but poorly documented or disorganized or missing pertinent negatives	Most key positive history information well documented and organized; may miss a few pertinent negatives	All key history information present, concise and well organized with little irrelevant information
DOCUMENTATION: PHYSICAL EXAM			
1	2	3	4
Key physical examination findings are missing or incorrect	Most key positive physical examination findings present but poorly documented or disorganized or missing pertinent negatives	Most key positive physical examination findings well documented and organized; may miss a few pertinent negatives	All key physical examination findings present, concise and well organized with little irrelevant information
SUMMARY STATEMENT			
1	2	3	4
Incorrect	Without synthesis (that the symptoms may relate to each other)	Adequate synthesis of the patient's symptomatology	Concise and succinct synthesis of the patient's presenting problems.
ASSESSMENT			
1	2	3	4
Unreasonable differential diagnosis	Appropriate differential diagnosis weakly supported, or several incorrect links between findings and diagnosis	Appropriate differential diagnosis well supported, may have a few missing or incorrect attributions that would not impact diagnosis	Excellent differential diagnosis well supported, links to diagnoses are correct and complete
